

The manufacture of each
of these beautifully
handcrafted
items, each an *art piece*
in its own right, provides an
income for people
in **rural areas**
of *South Africa*.

mission statement

changing
empowering
sharing

We at African Gifts help unlock the potential within South Africa's greatest source of wealth: **its people**.

CHANGING THE DESTINY OF A NATION, ONE GIFT AT A TIME.

African Gifts

In association with

African Gifts

it's the difference that makes a difference.

SOUTH AFRICA - a nation reborn!

A Rainbow nation.

There is, however a desperate need for income initiative for millions of previously disadvantaged communities, particularly in the rural areas, where HIV/AIDS is rife and work opportunities few and far between.

Functional illiteracy and the vast number of either child or woman headed households leave many starved of the most basic of human requirements - love and hope. The need for income and education is desperate.

This need saw the birth of African Gifts.

African Gifts takes the natural artistic talents of our people and through conceptualisation of design and trends, comes up with a number of innovative and exciting decor ranges that have been made to add a touch of the exotic, for the International Markets.

Our ranges include items such as beaded candles, cutlery, serviette rings, cushion covers, Christmas decorations and much more, all linked to fragrances that bring "a scent of Africa" to our various ranges.

product ranges

are based on the diversity of our African heritage, namely:

african sunset

A range redolent of the richness and grandeur of an *African Sunset*, with the opulent hues of all the various shades of orange, red and green together with the fragrance of the day left behind. *The sun sets softly as you close your eyes* and welcome the beautiful African sunset

with the relaxing, balancing, calming and harmonising fragrances of Sandalwood and Marula.

mountain mist

The beautiful pinks, reds and greens are the colours of the ynbos, the flora indigenous to the Western Cape mountains which lends itself to a unique range of home decor products mimicking the glorious colours of the protea flower. *Like the soft breath of an angel*, allow your thoughts to drift to shades of pink and green, Free your mind and uplift your emotions with the fragrance of Syringa and Jasmine.

savannah plains

The rich and luxuriant colours of the African Savannah, golden grass, lush foliage on a spreading Acacia tree, the shades from a Zebra hide, rocky outcrops, the rusty shades of termite mounds, all typify the unique flavour of the African Bushveld. Awaken memories of long

distance travel stimulating and inspiring fragrances of Rooibos, Ginger and Vanilla remind us of the beauty and majesty of the African plains.

Scents of Africa

Specialised fragrances have been developed for each range reflecting the ambience of an African experience. The various fragrance's utilise the perfumes of various unique flora giving each range a 'sense' of an African experience.

Each one of our Christmas angels is an art piece in itself.

The byline for this is:

"Be an Angel,
Buy an Angel,
Feed an Angel".
